Since 1992, Meridian International, an ISO9001 accredited company, has successfully established itself as one of the leading organizations serving the tool and hardware market, becoming the headquarters for an effective group of manufacturers with the proven capabilities of serving global customers. Such ability can be attributed to the synchronized approach to manufacturing taken by Meridian, following a collaborative process of internal research, product development and graphic design together with proven sourcing, manufacturing, and distribution capabilities.

Currently, we utilize a team containing more than 30 engineers and industrial designers who are involved in the coordination and execution of conceptual design, mechanical design, and the overall project management activities. In addition to our ongoing cooperation with some of the world's leading design houses, we currently have international branches located in Australia, Luxembourg, United Kingdom, Latin America, United States of America to guarantee our products strength across the competitive global markets. This comprehensive process ensures both the originality and superior quality of our products.

Meridian International also utilizes strong sourcing capabilities, currently working in co-operation with 700+ factories across China and in several other Asian countries. Our experienced product managers and sourcing specialists are constantly working with customers on the development and management of their product ranges.
